

Attorney Docket No. 45112-089  
Application No. 09/604,082

4. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a contact pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, and one or more compound selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol.

7. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil; piperonyl butoxide; and one or more compounds, selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol: in admixture with an acceptable carrier selected from the group consisting of isoparaffinic hydrocarbons, methyl salicylate, menthyl salicylate, isopropyl alcohol, and benzyl alcohol.

11. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, one or more conventional pesticides, and one or more compounds selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol.

13. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising in admixture with an acceptable carrier, rosemary oil, sesame oil, soybean oil, and one or more plant essential oils, selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol.

15. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, sesame oil and optionally, one or more plant essential oils, selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol.

Attorney Docket No. 45112-089  
Application No. 09/604,082

17. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, soybean oil and optionally, one or more plant essential oils, selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol.

19. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil, eugenol and phenethyl propionate.

21. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil, eugenol, phenethyl propionate and methyl salicylate.

23. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil, eugenol, phenethyl propionate and menthyl salicylate.

25. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, rosemary oil, peppermint oil, eugenol, phenethyl propionate and ISOPAR M.

27. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil, menthyl salicylate and soybean oil.

Attorney Docket No. 45112-089

Application No. 09/604,082

29. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil, and soybean oil.

31. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil and soybean oil.

33. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil and L-menthyl iso-valerate.

35. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil, soybean oil and L-menthyl iso-valerate.

37. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil, benzyl alcohol and soybean oil.

39. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil, soybean oil and sesame oil.

Attorney Docket No. 45112-089  
Application No. 09/604,082

41. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil and sesame oil.

43. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, soybean oil and sesame oil.

45. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, in admixture with an acceptable carrier, rosemary oil, peppermint oil and benzyl alcohol.

**Please add new Claims 46-49, as follow.**

46. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, rosemary oil; sesame oil; and one or more plant essential oils, selected from a group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; in admixture with an acceptable carrier selected from the group consisting of isoparaffinic hydrocarbons, methyl salicylate, menthyl salicylate, isopropyl alcohol, and benzyl alcohol.

47. A method for controlling household pests, wherein controlling is to knockdown and kill, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising, rosemary oil; soybean oil; and one or more plant essential oils, selected from a group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; in admixture with an acceptable carrier selected from the group consisting of isoparaffinic hydrocarbons, methyl salicylate, menthyl salicylate, isopropyl alcohol, and benzyl alcohol.
